## **Animal and Plant Health Inspection Service**

*TITLE:* Communicable Diseases in Horses

*OMB CONTROL NUMBER:* 0579-0127

*SUMMARY OF COLLECTION:* Under the authority of the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) regulates the importation and interstate movement of animals and animal products, and conducts various other activities to protect the health of U.S. livestock and poultry. Equine infectious anemia (EIA) is an infectious and potentially fatal viral disease of equines. There is no vaccine or treatment for the disease. It is often difficult to differentiate from other fever-producing diseases, including anthrax, influenza, and equine encephalitis. The regulations in 9 CFR 75.4 govern the interstate movement of equines that have tested positive to an official test for EIA (EIA reactors) and provide for the approval of laboratories, diagnostic facilities, and research facilities. Ensuring the safe movement of these horses requires the use of information collection activities, including an EIA laboratory test form, a certificate or permit for the interstate movement of an EIA reactor, a supplemental investigation form if a horse tests positive for EIA, agreements, request for hearing, and written notification of withdrawal of approval.

*NEED AND USE OF THE INFORMATION:* The information collected from forms, APHIS VS 10-11, Equine Infectious Anemia Laboratory Test; VS 10-12, Equine Infectious Anemia Supplemental Investigation; and VS 1-27, Permit for the Movement of Restricted Animals, will be used to prevent the spread of equine infectious anemia. Regulations also require the use an Agreement for Approved Livestock Facilities, Request for Hearing, Written Notification of

Approval Withdrawal, Proposal to Conduct Laboratory EIA, Review of Requirements, Agreement to Conduct EIA Testing, Inspections, Memorandum of Recommendation and Justification, Monthly Summary Reporting, and Request for Approval to Withdrawal. Without the information it would be impossible for APHIS to effectively regulate the interstate movement of horses infected with EIA.

*DESCRIPTION OF RESPONDENTS:* Farms; Business or other for-profit; State, Local and Tribal Government

*NUMBER OF RESPONDENTS:* 235,486

*FREQUENCY OF RESPONSES:* Reporting: On occasion

*TOTAL BURDEN HOURS:* 118,010

authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service (APHIS) regulates the importation of certain fruits and vegetables in accordance with the regulations in “Subpart—Fruits and Vegetables” (7 CFR 319.56-1 through 319.56-76). In accordance with Section 319.56-58, Bananas from the Philippines may be imported into the United States under certain conditions to prevent the introduction of plant pests into the United States.
